THE THE BUTTONS GAME

We wrote
the game
rules

**We
made
the dice**

We
pasted
the rules
on a box

THE BUTTONS GAME

Get 3 dice and 7 buttons for each player.

Each player, in his turn, can roll the 3 dice as many times as he wants, trying to get as close possible to 49, but **without exceeding**.

The winner is the player who gets closest to 49.

Players that exceed 49 pay a button to the winner.

The absolute winner is the player who has the largest number of buttons, when someone runs out of buttons.

**Finally
we started
playing**

Enjoy!

**We cut
and
pasted the
pictures**

**MATH
IS
FUNNY!**
