

TXOMIN AGIRRE IKASTOLA (ONDARROA-SPAIN)

Txomin Agirre School from Ondarroa is a College, part of the Diocesan Private Schools of Biscay and the Federation of Basque Private Schools (EIB). This College was created in 1970, in response to the demand of Basque education; moreover, it was based either in the knowledge of Basque culture and history, and in human and Christian values. At our school we have pupils from 0 to 16. We have been involved in Comenius projects for a long time, working with primary school pupils and finding it very useful to acquire different culture and language experiences.

The town of Ondarroa is situated on the north coast of Spain, in the Basque Country, next to the French border. Mainly dedicated to fishing, its harbour is one of the most important in Spain. As well as the harbour, there's an interesting neo gothic church and two enjoyable beaches.
